

6.6 Food hygiene

(Including the procedure for reporting food poisoning)

Policy statement

We provide and/or serve food for children on the following basis:

- Snacks – provided by Albany Montessori Nursery
- Breakfast and Tea – provided by Albany Montessori Nursery
- Packed lunches – provided by parents.

We maintain high food hygiene standards with regard to the purchase, storage, preparation and serving of food.

We are registered as a food provider with the local authority Environmental Health Department.

Procedures

- The person in charge and the person responsible for food preparation understands the principles of Hazard Analysis and Critical Control Point (HACCP) as it applies to their business. This is set out in
- Safer Food, Better Business. The basis for this is risk assessment of the purchase, storage, preparation and serving of food to prevent growth of bacteria and food contamination.
- All staff follow the guidelines of Safer Food, Better Business.
- Daily opening and closing checks are carried out on the kitchen to ensure standards are met consistently.
- We use reliable suppliers for the food we purchase.
- Food is stored at correct temperatures and is checked to ensure it is in-date and not subject to contamination by pests, rodents or mould.
- Packed lunches are stored in a cool place; un-refrigerated food is served to children within 4 hours of arrival at nursery.
- Reheated food is warmed to a temperature of 75°C for at least 2 minutes to kill any potential bacteria.
- Food preparation areas are cleaned before use as well as after use.
- There are separate facilities for hand-washing and for washing up.
- All surfaces are clean and non-porous.
- All utensils, crockery etc are clean and stored appropriately.
- Waste food is disposed of daily.
- Cleaning materials and other dangerous materials are stored securely.
- Children do not have unsupervised access to the kitchen.

- When children take part in cooking activities, they:
 - are supervised at all times;
 - understand the importance of hand washing and simple hygiene rules;
 - are kept away from hot surfaces and hot water; and
 - do not have unsupervised access to electrical equipment, such as blenders etc.

- When children are eating they are supervised at all times. They will always be in sight and sound of a member of staff.

Reporting of food poisoning

- Food poisoning can occur for a number of reasons; not all cases of sickness or diarrhoea are as a result of food poisoning and not all cases of sickness or diarrhoea are reportable.
- Where children and/or adults have been diagnosed by a GP or hospital doctor to be suffering from food poisoning and where it seems possible that the source of the outbreak is within the setting, the manager will contact the Environmental Health Department to report the outbreak and will comply with any investigation.
- Any confirmed cases of food poisoning affecting two or more children looked after on the premises are notified to Ofsted as soon as reasonably practicable, and always within 14 days of the incident.
